## Trophies and Ribbon Awards

One week before the show everyone was saying that they had no flowers - but the show certainly did not disappoint. It was amazing the variety and quality of orchids, both species and hybrids, that appeared on the displays. Well done to everyone, whether you were an award winner or not.

First of all, very well done to East Midlands Orchid Society, as not only did they win the trophy for Best Display, but also four other trophies for the various gorgeous specimen plants on their stand.

There were some unusual and rare specimens around the show, some very tiny that you had to search for them, but this year any orchid grower would have been spoilt for choice as to where to look next.

I hope you will enjoy the photos - and my apologies for any plants I have missed. Some were so tall and far away at the back of the stands that there was no way I could get pictures of them, and I didn't want to wreck anyone's stand!

There will be a part three, as the news section this time I have had to leave out due to lack of space. It was difficult as it was to fit in the awards, and reduce it all to a file size that could be sent by email. So part three of this epic trilogy will follow in due course!!
